Why Executive Distributors?

Who we are

We're Executive Distributors. We've grown a passion for improving the washroom and cleaning industry over 20 years. Our key clients span a range of sectors from Education to Health & Aged Care, and Food Production facilities across South East Queensland.

We're a family business, who believes in simple and easy transactions, fast and accurate free delivery, and NO SNEAKY CONTRACTS.

What we do

We're about bringing innovation, improvements, and waste reduction to the washroom and cleaning industry.

Why we do it

Australia has one of the highest rates of paper and soap usage in the world, per capita. We believe we can reduce waste, and improve the efficiencies of Australian washrooms, without compromising the high level of hygiene we enjoy in this wonderful land.

Our passion as a family business, drives us to explore new ways to improve our clients' cleaning and washroom processes.

We're committed to bringing innovative savings to our clients across South East Queensland.

How we do it

We do this by constantly challenging our product range, delivery offerings, and pushing the boundaries.

We believe there are colossal savings and waste reduction opportunities available in the Australian market, and we're excited to be leading the journey.

TESTIMONIALS

"Amazing local company that have been in constant contact updating our order amidst these uncertain times. Always greeted with friendly voices on the other end of the line when I call to place our order for our school. This has been appreciated greatly as we all try to get through this virus and the challenges it has brought with it. I know that they have been run off their feet but still happy to enjoy a bit of small talk and humour (particularly around toilet paper). Keep up the awesome work!"

KAREN D. – Carina

"Excellent Customer Service, Great Prices and Prompt Deliveries. Staff go above and beyond, very friendly service."

LYN A. – Heathwood

"We are very happy with your service....in fact "we're over the moon."

ANDREW D. – Toowoomba

"You guys are so efficient and a pleasure to deal with."

KERRI A. – Toowoomba

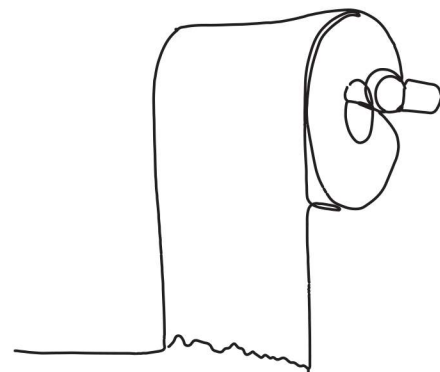

WE WOULD LOVE TO HEAR YOUR FEEDBACK!

waste

UNDERSTANDING HIDDEN COSTS IN YOUR WASHROOM

There are many areas of waste in washrooms, which can all add significant costs to your operation. We believe the first step to fixing problems is to understand them better. Below are some of the more significant factors which we have helped to eliminate across washrooms in Australia.

Overuse wastage

This may take the form of carelessness. Eg. if a user takes 6 sheets instead of 2, this can have a massive effect on your costs. In the soap arena, changing from a liquid to a foam soap, can cut out 80% overuse (see case study on page 09)

Vandalism & Pilferage

This is unfortunately common complaints we hear across a broad section of the markets we serve. Selecting durable, lockable dispensers greatly reduces these issues. We've got a wide range of options to suit your particular facility and needs.

Cleaners Time

Your cleaners' time can be an area of significant expense. Overuse of product results in soap and papers being replenished more often. Vandalism results in hours of wasted cleaning, removing disgusting debris, and sanitising the room. This reduces the teams' effectiveness in keeping your washroom safe and sanitary. There are many ways of optimising this, including installing lockable dispensers which regulate product use, and reduce the time taken for replenishment.

Environmental Costs

When we think of environmental impacts, we immediately start thinking of compostable, low strength papers, and plant-based chemicals. Take a step back.... If we simply reduce the AMOUNT we use significantly, this has an immediate effect on Australia's already over-stretched sewer systems and the environment. Another common vandalism issue, is entire rolls of toilet paper being flushed. Stop and think about the flow-on environmental impact of this.

Plumbing Costs

Blocked drains can cause massive issues for your team on the ground, and add significant unplanned plumbing costs to clear blockages, not to mention the foul odours and mess associated with these kind of problems!

OUR TEAM STANDS READY, KEEN AND EAGER TO HELP YOU REDUCE THESE COSTS, AND
IMPROVE YOUR FACILITY AND OPERATION.

Towels & Hand Drying

Hygiene starts and stops at hand washing. Dirty hands are one of the most common ways in which contamination and infection spread.

ITOW428130 – TAD Compact Interleaf Towel

- TAD – Through Air Drying
- Excellent quality towel, high absorbency
- Perfect for use in small spaces
- Folded towel size – 19cm x 5cm

WHY IS SOAP *so important?*

Foaming soaps are much more effective than liquid soaps for a number of reasons:

HYGIENE

In order to wash your hands effectively, you need to lather the soap, and wash hands all over. While liquid soap can lather up perfectly well, nobody does it. Instead of a small drop of it, and vigorous rubbing, most users simply take 2-3 pumps, give a general rub, and rinse... most of the soap is unused.

Foaming soap takes the perfect amount of soap, forces it through a foaming chamber where it is aerated, enabling an effective wash, faster, with no waste.

Another shocking fact.... Bulk fill dispensers harbour germs, which grow and spread on the hands... spreading germs, rather than preventing the spread!!

ENVIRONMENT

Today's world sees councils floundering with growing waste in sewers... one simple way you can help the environment... And your budget!

COSTS

Below are some of the costs associated with old-school liquid soap.

- Waste of using too much
- Cost of cleaner's time to refill regularly
- Cost of replacement of contaminated dispensers

Foaming soap is only expensive if you don't know how to do Maths....
Use this simple calculation...

Liquid soap comes out in a small dot, so we think we need 2 pumps.

$$1.5\text{ml} \times 2 \text{ pumps} = 3\text{ml}$$

Foam soap is lathered, so typically we take 1 pump as we see it's enough

$$1 \text{ pump} = 0.4\text{ml per pump}$$

**SAVE MONEY
GO WITH FOAM**

Liquid Soap wastes 7 x more than you need to use.

Soap & Hand Protection
